

# ***Digital Wireless System***

Thank you for purchasing our visual security system. It can help the users to Improve the working efficiency and provide the security of the mechanical person. We strictly follow the ISO/TS16949 quality Management systems, product design with the industrial-grade materials, advanced testing equipment to provide the reliability and stability. Products meet Chinese MA, European and American FCC, CE, E-MARK, Japan and other international standards.

## Features

- ★Patant on the monitor design, monitor housing is made by ABS which has ability of high temperature resistant.
- ★7" High Resolution Color TFT-LCD. LED backlight;
- ★Auto or manual switch the different channel;
- ★8V-32V DC power input, suitable for all kinds of vehicles;
- ★Monitor circuit has protector for battery reverse(+/-);
- ★LED backlight display with constant voltage constant current circuit protection design.  
(Solve LED work temperature reaches the limit of its current damage and prolong service life);
- ★Monitor OSD menu can set each camera image in 4 mode NOR/MIR/UP/DOWN;
- ★Reverse reference line make the safe operation on reversing;
- ★Two Digital Wireless signal transmit. Support sub-screen and two screens;
- ★High shock resistant rating: 8G;
- ★Car digital wireless camera waterproof: IP69K.
- ★Camera design to prevent the camera oxidation and atomization.

## Notice:

- ★Before using our products, please read this manual first.
- ★DC8~32V input, the power cable(red and black) connect with the car battery (power and ground)
- ★Please make sure all the cables are connected tightly, or else the system will not work well.
- ★The monitor is not waterproof, please don not place the monitor outdoor.
- ★Do not open the housing of the camera, otherwise the waterproof device and chipset inside it will be damaged.
- ★While driving, please do not watch DVD, etc.
- ★Please do not use caustic chemicals to wipe the camera and monitor.

### Warning

The system maintenance must be maintained by professionals, please do not open and improve the system!

The system only for the safe operation of machine and equipment, not responsible for accidents!

This manual is for reference only. if unknown, or any changes, we will give no notice.

The final interpretation right belongs to the manufacturer.

## Before you request for repair

Phenomena below are not necessary mean failure with Display.

Please check off per following methods before you request for repair.

Phenomana	Possible Causes
No Picture	Improper connection with Automobile adapter. Use of unauthorized power supply. Power Switch is on OFF position.
Dark Picture	Please check contrast and brightness.
No color	Check if color is adjusted, or check if the color system(PAL/NTSC) is right.
